

ART AUREA

Arts & Crafts Magazine

MEDIA KIT 2024

BACKGROUND

The Modernist period of the early 20th century was characterized by people's vision of wedding arts to crafts, and improving the working conditions in industrial production. In particular the Bauhaus (1919–1933) provided trailblazing impetus that continues to exert an influence in today's workshops and manufactories. A good 100 years later, in the face of growing environmental problems and complex global crises, the unity of art and craft as well as responsible, sustainable design and manufacturing takes on new meaning.

COMMITMENT

With a print magazine in the style of an art book and a sophisticated internet platform, we explain and communicate the culture of arts and crafts. For our candid and unprejudiced reportage, we search worldwide for artists, crafts people and manufactories that produce artifacts which unite cultural quality and intellectual depth.

We inform our readers so that they can more consciously choose products and art objects that are sources of long-lasting pleasure and that lastingly preserve their value – or increase in worth – with the passage of time. We encourage creative abilities, artistic craftsmanship and meaningful workplaces. Sustainability and environmental awareness are especially important to us.

QUALITY

The journalistic level of the content is on a par with excellent layout in the style of an art book. This makes Art Aurea a collector's item and a document of contemporary culture.
